EXPERIENCE

Freelance Product Designer

Jun 2019 - Present

Helping large and small companies create innovative and meaningful experiences through design. Available for fulltime or contract-based work.

Evariant (Formerly Imagepath)

Product Design Manager

Mar 2015 - Mar 2019

Designed Evariant's Engagement Center application that centralized all client data for call center agents. Led the end-to-end design of multiple digital products to help healthcare systems see their data more clearly through visualizations and insights. Created and implemented a Design System to standardize the look and feel of all products. Gathered requirements to develop complex design solutions by creating process flows, wireframes, high fidelity mockups and interactive prototypes.

Senior Interactive Designer / Development Team Lead

Jan 2013 - Feb 2015

Led the creative and development teams for all internal marketing and client campaign initiatives. Provided art direction and design for creative deliverables and managed development resources to meet campaign services workload demands. Assisted in campaign execution and determined estimates for creative and development tasks.

Interactive Designer

Oct 2008 - Dec 2012

Designed numerous websites and marketing campaigns that integrated into CRM and marketing automation tools in order to help customers track, develop, and nurture leads into real, notable ROI.

Imagepath

Designer

Apr 2006 - Oct 2008

Worked as a full service designer creating advertising campaigns, websites, direct mail, annual reports, E-Commerce solutions and trade show material.

Intern / Production Artist

Aug 2005 - Dec 2005

Worked closely with the creative director on numerous print and web projects.
